PROFESSIONAL SUMMARY

GIS Analyst with 3+ years of experience in ArcGIS Pro, QGIS, spatial data management, QA/QC, geodatabase maintenance, and infrastructure mapping. Experienced in map production, spatial analysis, GPS data integration, and ArcGIS Online. Currently expanding expertise in AutoCAD, Web GIS, and geospatial automation to support infrastructure, environmental, utility, and municipal GIS projects.

CORE TECHNICAL SKILLS

GIS Software: ArcGIS Pro, ArcGIS Online, QGIS, ArcGIS Field Maps, Survey123, Story Maps (Basic)

Spatial Analysis: Geoprocessing, Overlay & Buffer Analysis, QA/QC, Data Validation

Data Management: Relational Geodatabases, Metadata, Spatial Data Maintenance, SQL (Basic)

Data Sources: GPS, Satellite Imagery, LiDAR (Basic), Open Data

Automation & Tools: Model Builder (Basic), Python (Basic), Microsoft Excel

Documentation & Support: Technical Documentation, Troubleshooting, User Support

PROFESSIONAL EXPERIENCE

GIS Analyst – Deduce Technologies | Bangalore, India

July 2020 – November 2023

- Created, maintained, and updated GIS datasets using ArcGIS Pro and QGIS to support transportation and infrastructure mapping projects.
- Performed topology validation, attribute verification, spatial QA/QC, and managed geodatabases and metadata to ensure data accuracy, consistency, and integrity.
- Produced cartographic and thematic maps, analytical outputs, and ArcGIS Online web maps to support planning, project stakeholders, and decision-making.
- Integrated GPS, satellite imagery, aerial imagery, and survey datasets into GIS workflows for spatial analysis and feature validation.
- Conducted overlay, buffer, and proximity analyses using ArcGIS Pro to support infrastructure planning and spatial decision-making.
- Collaborated with multidisciplinary teams to resolve GIS issues, maintain technical documentation, and deliver high-quality mapping products on schedule

Associate Sales Consultant

Policybazaar.com | Kochi, Kerala, India

January 2024 – August 2024

- Managed customer communications and documentation while maintaining accurate records.
- Developed strong stakeholder communication, analytical, and problem-solving skills.
- Worked effectively in a fast-paced environment while handling multiple priorities.

SELECTED GIS PROJECTS

Emergency Response & Evacuation Planning

ArcGIS Pro | Model Builder | Network Analyst

- Developed an automated evacuation model for rail derailment scenarios using ArcGIS Pro and Model Builder.
- Designed a network dataset and performed location-allocation analysis to identify optimal evacuation routes and shelter locations.
- Produced professional cartographic maps supporting emergency planning and public safety decision-making.

Landscape Ecology Analysis

QGIS

- Conducted spatial analysis to identify forest regeneration priority areas using buffering, proximity analysis, and centroid analysis.
- Evaluated landscape connectivity and biodiversity conservation opportunities.
- Produced publication-quality thematic maps following cartographic design principles.

Cartographic Design & Visualization

ArcGIS Pro

- Created publication-quality cartographic maps using multiple open datasets.
- Applied custom symbology, annotation, and layout design following cartographic best practices.
- Produced clear visualizations to support spatial communication and decision-making.

EDUCATION

Postgraduate Certificate - Landscape & Horticulture Techniques

Niagara College, ON (Sep 2025–Apr 2026)

Postgraduate Certificate – Geographic Information Systems (GIS)

Fanshawe College, ON (Sep 2024–Apr 2025)

Master of Science (M.Sc.) – Geography

Bangalore University, India (Aug 2017–June 2019)

Diploma – Computer Applications

Keltron Knowledge Centre, India (2014)

Bachelor of Science (B.Sc.) – Geography

University of Kerala, India (June 2013–July 2016)

CERTIFICATIONS

GIS for Climate Action – Esri (MOOC) -April 2026

- Applied GIS concepts for environmental analysis and climate-related spatial problem-solving
- Gained experience in mapping, spatial data interpretation, and environmental decision support
